INDEPENDENT AUDITOR'S REPORT

To the Members of Transpares Limited,

Report on audit of the standalone Financial Statements:

Opinion

We have audited the standalone financial statements of Transpares Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2020, and the Statement of Profit and Loss, statement of changes in equity and statement of cash flow for the year ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, and Profit and Loss, statement of changes in equity and statement of Cash flow for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

AHMEDABAN REPORT

Inventories

Inventories comprising of finished goods, workin progress and Raw Material represent a substantial part of the Companies total assets

Assessing net realisable value

The inventories are carried at the lower of the cost and net realizable value ('NRV'). The determination of the NRV involves estimates based on prevailing market conditions, current prices and expected date of commencement and completion of the project, the estimated future selling price, cost to complete projects and selling costs.

Considering significance of the amount of carrying value of inventories in the financial statements and the involvement of significant estimation and judgement in such assessment of NRV, the same has been considered as key audit matter.

Our audit procedures/ testing included, among others:

- We read and evaluated the accounting policies and disclosures made in the financial statements with respect to inventories;
- Discussed with the management to understand the process and methodology of using the key estimates, data inputs and assumptions adopted in the valuation of the Inventory as at the Year End.
- Verifying the NRV assessment and comparing the estimated costs to complete each Project with the Company's updated budgets.

Responsibility of Management for Standalone Financial Statements:

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) of the Company in accordance with the accounting principles generally accepted in India, including the Indian accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the audit of the Financial Statements:

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Transpares Limited FY 2019-2020

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether
 due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
 a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
 involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
 control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible
 for expressing our opinion on whether the Company has adequate internal financial controls with
 reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matters or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in

the Annexure A a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143(3) of the Act, we report that:

We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

- (a) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- (b) In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- (c) The Balance Sheet, the Statement of Profit and Loss, and the cash flow statement and the notes to accounts dealt with by this Report are in agreement with the books of account.
- (d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) On the basis of the written representations received from the directors as on March 31, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B"
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigations which would impact its financial position.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

(referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date to the members of Transpares Limited)

- i. (a) In our opinion and according to the information and explanations given to us, the Company is in the process of updating fixed assets records to show full particulars including quantitative details and situation of its fixed assets and reconciling the same with the general ledger.
 - (b) The fixed assets are physically verified by the Management according to a phased programme designed to cover all the items over a period of three year which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the fixed assets has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.
 - (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties of the Company are held in the name of the Company.
- ii. As explained to us, the inventories were physically verified during the year by the Management at reasonable intervals and no material discrepancies were noticed during the physical verification.
- iii. In our opinion and according to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013 and therefore, reporting under clause (iii) (a) to clause (iii) (c) of the Order is not applicable to the Company.
- iv. In our opinion and according to the information and explanations given to us, the Company does not have any loans, investments, guarantees, and security which are subject to provisions of section 185 and 186 of the Act. Therefore, reporting under clause (iv) of the Order is not applicable to the Company.
- v. In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits during the year from the public within the meaning of provisions of section 73 to 76 of the Companies Act, 2013 and the rules framed thereunder and therefore, reporting under clause (v) of the Order is not applicable to the Company.
- vi. In our opinion and according to the information and explanations given to us, in view of Rule 3 of the Companies (Cost Records and Audit) Amendments Rules 2014 the maintenance of cost records under sub-section (1) of section 148 of the Companies Act, 2013 is not applicable to the Company and therefore, reporting under clause (vi) of the Order is not applicable to the Company.
- vii. (a) In our opinion and according to the information and explanations given to us, the Company has been regular in depositing with appropriate authorities undisputed statutory dues, including provident fund, employee's state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, goods and service tax, cess and any other statutory dues applicable to it. Further, no undisputed amounts payable in respect of income tax, sales tax, service tax, duty of customs, duty of excise, value added tax, goods and service tax, cess and other statutory dues were in arrears, as at 31st March 2020 for a period of more than six months from the date they become payable.

- (b) According to the information and explanations given to us, there are no dues of Income tax, sales tax, service tax, duty of customs, duty of excise, goods and service tax and value added tax which have not been deposited on account of any dispute.
- viii. In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of dues to banks. The Company does not have any loans or borrowings from financial institution and government or by way of debentures.
- ix. In our opinion and according to the information and explanations given to us, the Company has neither raised any term loans or by way of initial public offer or further public offer during the year nor was any unutilized amount left on this account, as at the beginning of the year, and therefore, reporting under clause (ix) of the Order is not applicable to the Company.
- x. In our opinion and according to information and explanations given to us, no material fraud by the Company or on the Company by its officers or employees has been noticed or reported during the course of our audit.
- xi. In our opinion and according to information and explanations given to us, the Company has paid the managerial Remuneration in accordance with the provisions of section 197 read with Schedule V to the Companies Act 2013.
- xii. In our opinion and according to information and explanations given to us, the Company is not a Nidhi company and therefore, reporting under clause (xii) of the Order is not applicable to the Company.
- xiii. In our opinion and according to the information and explanations given to us, the Company is in compliance with sections 177 and 188 of the Act, where applicable, for all transactions with related parties and the details have been disclosed in the Ind AS financial statements, as required by the applicable accounting standard.
- xiv. According to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year and therefore, reporting under clause (xiv) of the Order is not applicable to the Company.
- xv. In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions specified under section 192 of the Act with directors or persons connected with directors and therefore, reporting under clause (xv) of the Order is not applicable to the Company.
- xvi. The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934.

Annexure B to the Auditors Report

(Referred to in paragraph 2 (f) under 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Transpares Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

AUDITOR'S REPORT

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

COMPANY OVERVIEW AND SIGNIFICANT ACCOUNTING POLICIES

1 Corporate Information

Transpares Ltd. ('the Company') is a closely held public limited company domiciled and incorporated in India having its registered office at 14/15 Ashwamegh Industrial Estate, Sarkhej Bawla Highway, Vill P.O. Changodhar, TA- Sanand, Ahmedabad 382210. The company is a manufacturar of Radiators.

2 Application of New Indian Accounting Standards

All the Indian Accounting Standards issued and notified by the Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) till the financial statements are authorized have been considered in preparing these financial statements.

3 Basis of Preparation

(a) Statement of Compliance

The Financial Statements have been prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended). The date of transition to Ind AS is April 1, 2016. The mandatory exceptions and optional exemptions availed by the Company on First time adoption have been detailed in the Note 6.

(b) Basis of Measurement

The Financial Statements have been prepared on the historical cost convention on accrual basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below:

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle. Accordingly, all assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in Ind AS 1 – 'Presentation of Financial Statements' and Schedule III to the Companies Act, 2013.

The Standalone Financial Statements have been presented in Indian Rupees (INR), which is also the fuctional currecy. All values are rounded off to the nearest two decimal lacs, unless otherwise indicated.

Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions.

The Company categorizes assets and liabilities measured at fair value into one of three levels depending on the ability to observe inputs employed in their measurement which are described as follows:

- (i) Level 1: Quoted Prices (unadjusted) in active markets for identical assets or liabilities
- (ii) Level 2: inputs are inputs that are observable, either directly or indirectly, other than quoted prices included within level 1 for the asset or liability.
- (iii) Level 3 inputs are unobservable inputs for the asset or liability reflecting significant modifications to observable related market data or Company's assumptions about pricing by market participants.

4 Significant Accounting Policies

(a) Property, Plant and Equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the Balance Sheet at cost less accumulated depreciation and impairment losses, if any. Freehold land is not depreciated.

Property, Plant and Equipment (PPE) in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. The cost of an asset comprises its purchase price or its construction cost (net of applicable tax credits), any cost directly attributable to bring the asset into the location and condition necessary for it to be capable of operating in the manner intended by the Management. It includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of PPE when completed and ready for intended use. Parts of an item of PPE having different useful lives and significant value and subsequent expenditure on Property, Plant and Equipment arising on account of capital improvement or other factors are accounted for as separate components.

Capital work in progress includes the cost of PPE that are not yet ready for the intended use.

An item of PPE is de-recognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of PPE is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss.

Depreciation of these PPE commences when the assets are ready for their intended use.

Depreciation is provided on the cost of Property, Plant and Equipment (other than land and properties under construction) less their estimated residual value, using the straight-line method over the useful life of PPE as stated in the Schedule II to the Companies Act, 2013 or based on technical assessment by the Company.

Useful lives of each class of PPE as prescribed under Part C of Schedule II to the Companies Act, 2013 are as under:-

Asset Description	Assets Useful life (in Years)	
Factory Building	30	
Building other than Factory Building	60	
Plant and Machinery	15	
Electrical installation	10	
Office Equipment	5	
Computers	3	
Furniture and Fixtures	10	
Vehicle	8	

The estimated useful lives, residual values and depreciation method are reviewed on an annual basis and if necessary, changes in estimates are accounted for prospectively.

Depreciation on additions/deletions to PPE during the year is provided for on a pro-rata basis with reference to the date of additions/deletions.

Depreciation on subsequent expenditure on PPE arising on account of capital improvement or other factors is provided for prospectively over the remaining useful life.

(b) Impairment of Tangible and Intangible Assets

The Company reviews the carrying amount of its tangible and intangible assets Property, Plant and Equipment (including Capital Works in Progress) of a "Cash Generating Unit" (CGU) at an interval of 3 years to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the Statement of Profit and Loss.

An assessment is made at an interval of 3 years to see if there are any indications that impairment losses recognized earlier may no longer exist or may have come down. The impairment loss is reversed, if there has been a change in the estimates used to determine the asset's recoverable amount since the previous impairment loss was recognized. If it is so, the carrying amount of the asset is increased to the lower of its recoverable amount and the carrying amount that have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. After a reversal, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life. Reversals of Impairment loss are recognized in the Statement of Profit and Loss.

(c) Inventories

Inventories are valued at lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary.

Inventories	Cost Formulae
Raw Material	At Weighted Average Cost (Net of eligible credit)
Raw Material in Transit	At Invoice Price
Process Stock	Cost represents material, labour and manufacturing expenses and other incidental costs to bring the inventory in present location and condition.
Finished Goods	Cost represents material, labour and manufacturing expenses and other incidental costs to bring the inventory in present location and condition.

(d) Revenue Recognition

Revenue arising from sale of products is recognized when the significant risks and rewards of ownership have passed to the buyer, which is at the point of transfer of custody to customers, and the amount of revenue can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the Company.

Revenue from services is recognized when the outcome of services can be estimated reliably and it is probable that the economic benefits associated with rendering of services will flow to the Company, and the amount of revenue can be measured reliably.

Interest income from financial assets is recognised at the effective interest rate applicable on initial recognition.

Dividend income from investments is recognised when the shareholder's right to receive payment is established.

Export incentives are accrued in the year when the right to receive credit is established in respect of exports made and are accounted to the extent there is no significant uncertainty about the measurability and ultimate realization/ utilization of such benefits/ duty credit.

The Company accounts for insurance claims in case of total loss of asset, by transferring either the carrying cost of the relevant asset or insurance value (subject to deductibles), whichever is lower under the head "Claims Recoverable - Insurance" on intimation to Insurer. In case insurance claim is less than carrying cost, the difference is charged to Standalone Statement of Profit and Loss.

As and when claims are finally received from the insurer, the difference, if any, between Claims Recoverable-Insurance and claims received is recognised in the Statement of Profit and Loss.

(e) Foreign Exchange Transactions

Transactions in currencies other than the Company's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated using mean exchange rate prevailing on the last day of the reporting period.

Non monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of transaction.

Exchange differences on monetary items are recognised in the Statement of Profit and Loss in the period in which they arise.

(f) Employees Benefits

(i) Short Term Employee Benefits

Short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised undiscounted during the period employee renders services. These benefits include salaries, wages, bonus, performance incentives etc.

(ii) Defined Contribution Plan

The Company's contributions paid / payable for the year to Provident Fund are recognized based on the undiscounted amount of obligation to the Statement of profit and loss.

(iii) Defined Benefit Plan

Defined retirement benefit plans comprising of gratuity and leave encashment are recognized based on the present value of defined benefit obligation which is computed using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period.

Re measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest as defined above), are recognised in other comprehensive income as permitted in the period in which they occur and are not subsequently reclassified to profit or loss.

The retirement benefit obligation recognised in the Financial Statements represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of reductions in future contributions to the plans.

(iv) Other Long Term Employee Benefits

Other long term employee benefit comprises of leave encashment towards un-availed leave and Compensated absences, these are recognized based on the present value of defined obligation which is computed using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period.

Remeasurement of leave encashment towards un-availed leave and compensated absences are recognized in the statement of profit and loss in the period in which they occur.

(g) Borrowing Cost

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalized as part of such assets. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are recognized as expense in the period in which they are incurred.

(h) Non - Current Assets Held for Sale

Non - Current Assets, or disposal groups classified as held for sale are measured at the lower of carring amount and fair value less cost to sell.

Non-current assets or disposal groups are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset or disposal group is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such assets. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification as held for sale, and actions required to complete the plan of sale should indicate that it is unlikely that significant changes to the

plan will be made or that the plan will be withdrawn.

Property, Plant and Equipment and intangible assets are not depreciated or amortized once classified as held for sale.

(i) Income Taxes

Income tax expense represents the sum of the current tax and deferred tax.

(i) Current Tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates and laws that have been enacted or substantively enacted by the end of the reporting period.

(ii) Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with asset will be realised.

(iii) Current and Deferred Tax Expense for the Year

Current and deferred tax expense is recognised in the Statement of Profit and Loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

(j) Financial Instruments

Financial assets and financial liabilities are recognised when Company becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the Statement of Profit and Loss.

(k) Equity Instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

(I) Financial Assets - Classification and Measurement

(i) Cash and Cash Equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

(ii) Financial Assets at Amortised Cost

Financial assets are subsequently measured at amortised cost using the effective interest method if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The company has Earnst money Deposits and Security Deposits recognised at Amortised Cost.

(iii) Financial Assets at Fair Value through Other Comprehensive Income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(iv) Financial Assets at Fair Value through Profit and Loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition.

(v) Impairment of Financial Assets

The Company assesses at each balance sheet date whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to 12 month expected credit losses or at an amount equal to lifetime expected losses, if the credit risk on the financial asset has increased significantly since initial recognition.

(vi) Derecognition of Financial Assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or

when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset in its entirety (except for equity instruments designated as FVTOCI), the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in the Statement of Profit and Loss.

(m) Financial Liabilities - Classifiation and Measurement

Financial Liabilities are measured at amortised cost or Fair Value through Profit and Loss Account (FVTPL). A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivate or it is designated as on intial recognition. Financial Liabilities at FVTPL are measured at fair value and net gains and losses, including interest expense, are recognised in profit and loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest Expense and foreign exchange gains and losses are recognised in profit and loss. Any gain or loss on derecognition is also recognised in the profit and loss. Fees paid on the establishment of Loan facilities are recognised as transaction cost of the loan facilities are recognised as transaction cost of the facility will be drawn down.

(ii) Derecognition of Financial Liabilities

The company derecognizes a financial liability when its contractual obligations are discharged or cancelled or expire. The company also derecognises a financial liability when its terms are modified and the cash flow under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in the profit and loss account.

(n) Earnings Per Share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

(o) Provisions, Contingent Liabilities and Contingent Assets

(i) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

(ii) Contingent Liabilities and Assets

Contingent Liabilities are disclosed when there is a possible obligation arising from the past events, the existence of which will be confirmed only by the occurance or non - occurance of one or more uncertain future events not wholly within the control of the company or a present obligation that arises from the past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Contingent assets are disclosed in the Financial Statements by way of notes to accounts when an inflow of economic benefits is probable.

(iii) Onerous Contracts

A contract is considered to be onerous when the expected economic benefits to be derived by the company from the contract are lower than the unavoidable cost of meeting it's obligation under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract.

5 Critical Accounting Judgments, Assumptions and Key Sources of Estimation Uncertainty

Inherent in the application of many of the accounting policies used in preparing the Financial Statements is the need for Management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses. Actual outcomes could differ from the estimates and assumptions used.

(a) Judgements

The following are the critical judgements, apart from those involving estimations (Refer note 5(b)), that the Management have made in the process of applying the Company's accounting policies and that have the significant effect on the amounts recognized in the Financial Statements.

(i) Determination of Functional Currency

Currency of the primary economic environment in which the Company operates ("the functional currency") is Indian Rupee (₹) in which the company primarily generates and expends cash. Accordingly, the Management has assessed its functional currency to be Indian Rupee (₹).

(ii) Evaluation of Indicators for Impairment of Property, Plant and Equipment

The evaluation of applicability of indicators of impairment of assets requires assessment of external factors (significant decline asset's value, significant changes in the technological, market, economic or legal environment, market interest rates etc.) and internal factors (obsolescence or physical damage of an asset, poor economic performance of the asset etc.) which could result in significant change in recoverable amount of the Property, Plant and Equipment.

(b) Assumptions and Estimation Uncertainities

Information about estimates and assumptions that have the significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may differ from these estimates.

(i)Defined Benefit Obligations

Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

(c) Estimates

Estimates and underlying assumptions are reviewed on an ongoing basis. They are based on historical experience and other factors including expectations of future events that may have a financial impact on the company and that are believed to be reasonable under the circumstances. Revisions to the accounting estimates are recognised prospectively.

6 First-Time Adoption – Mandatory Exceptions and Optional Exemptions

(a) Overall Principal

The Company has prepared the opening balance sheet as per Ind AS as of April 1, 2016 (the transition date) by recognising all assets and liabilities whose recognition is required by Ind AS, not recognising items of assets or liabilities which are not permitted by Ind AS, by reclassifying certain items from Previous GAAP to Ind AS as required under the Ind AS, and applying Ind AS in the measurement of recognised assets and liabilities. However, this principle is subject to certain mandatory exceptions and certain optional exemptions availed by the Company as detailed below.

(b) Deemed Cost of Property, Plant and Equipment and Intangible Assets

The Company has elected to continue with the carrying value of all its Property, Plant and Equipment and Intangible Assets recognised as of April 1, 2016 (transition date) measured as per the Previous GAAP and use that carrying value as its deemed cost as of the transition date.

(c) Derecognition of Financial Assets and Financial Liabilities

The Company has applied the derecognition requirements of financial assets and financial liabilities prospectively for transactions occurring on or after April 1, 2016 (the transition date).

(d) Classification and Measurement of Financial Assets

The Company has determined the classification and measurement of financial asset in terms of whether they meet the amortised cost criteria or the fair value through other comprehensive income (FVTOCI) criteria based on the facts and circumstances that existed as on the transition date.

(e) Impairment of Financial Assets

The Company has applied the impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised in order to compare it with the credit risk at the transition date. Further, the Company has not undertaken an exhaustive search for information when determining, at the date of transition to Ind ASs, whether there have been significant increases in credit risk since initial recognition, as permitted by Ind AS 101.

38 Contingent Liabilities and Commitments

(a) Contingent Liabilities

There is no contingent liability of the firm/company not provided for as at 31st March, 2020 (PY Rs. Nil)

(b) Commitments

(b)(i) Capital Commitments

Estimated amount of contracts remaining to be executed on capital account (net of advances) and not provided for Rs. Nil (Previous years: NIL)

39 Employee Benefit Plans

In accordance with the stipulations of the Indian Accounting Standard 19 "Employee Benefits", the disclosures of employee benefits as defined in the Indian Accounting Standard are given below:

(a) Defined Contribution Plan

The Company has recognized an amount of Rs 1,47,191, (P.Y. Rs. 4,06,505) as expenses under the defined contribution plan in the Statement of Profit and Loss.

(b) Defined Benefit Plan

Gratuity

General description and benefits of the plan

15 days salary for each completed year of service. Vesting period is 5 years and the payment is at actual on superannuation, resignation, termination, disablement or on death. The liability for gratuity as above is recognised on the basis of actuarial valuation.

The Company makes contribution to Life Insurance Corporation (LIC) for gratuity benefits according to the Payment of Gratuity Act, 1972.

The most recent actuarial valuation of the defined benefit obligation for gratuity was carried out at 31st March 2020 by an actuary. The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of benefit entitlement and measures each unit separately to build up the final obligation. Scheme is funded through LIC.

Notes to Financial Statements for the Year ended on 31st March, 2020

Major Risks to the Plan (i)

Actuarial Risk

It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:

Adverse Salary Growth Experience: Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected.

Variability in mortality rates: If actual mortality rates are higher than assumed mortality rate assumption than the Gratuity Benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cashflow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Gratuity Benefits will be paid earlier than expected.

The impact of this will depend on whether the benefits are vested as at the resignation date.

(ii) **Investment Risk**

For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.

(iii) **Liquidity Risk**

Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the company there can be strain on the cashflows.

(iv) Legislative Risk

Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

Market Risk (v)

Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

Actuarial Assumptions

Notes to Financial Statements for the Year ended on 31st March, 2020

The following table sets out the status of the gratuity and the amounts recognized in the Company's financial statements as at 31st March, 2020.

As At 31st March,

As At 31st

The principal assumptions used for the purposes of the actuarial valuations were as follows.

	Actualial Assumptions	2020	March, 2019

(ii) Fair Value Measurement

This note provides information about how the Company determines fair values of various financial assets.

Fair Value of financial assets and liabilities that are not measured at fair value (but fair value disclosures are required)

Management considers that the carrying amounts of financial assets and financial liabilities recognized in the financial statements approximate their fair values.

(iii) Financial Risk Management Objectives

While ensuring liquidity is sufficient to meet Company's operational requirements, the Company's financial management committee also monitors and manages key financial risks relating to the operations of the Company by analysing exposures by degree and magnitude of risks. These risks include market risk (including currency risk and price risk), credit risk and liquidity risk.

Market Risk

Market risk is the risk of uncertainty arising from possible market price movements and their impact on the future performance of a business. The major components of market risk are commodity price risk, foreign currency risk and interest rate risk.

The primary commodity price risk that the company is exposed to include the price variations in the price of CRCA Sheet. The mentioned components form a major part of manufacturing of Radiators. The prices of these commodities lead to increase/ decrease in the cost of Radiators

Interest Rate Risk

The Company's interest rate risk arises from the Long Term Borrowings with fixed rates. The Company's fixed rates borrowings are carried at amortised cost.

Liquidity Risk

The Company manages liquidity risk by maintaining sufficient cash and cash equivalents including bank deposits and availability of funding through an adequate amount of committed credit facilities to meet the obligations when due. Management monitors rolling forecasts of liquidity position and cash and cash equivalents on the basis of expected cash flows. In addition, liquidity management also involves projecting cash flows considering level of liquid assets necessary to meet obligations by matching the maturity profiles of financial assets & liabilities and monitoring balance sheet liquidity ratios.

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The information included in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows. The contractual maturity is based on the earliest date on which the Company may be required to pay.

Notes to Financial Statements for the Year ended on 31st March, 2020
