Inauguration of New Manufacturing Plant at Moraiya (Ahmedabad), Gujarat

TRIL, The Ahmedabad-based electrical transformer maker has inaugurated its new state of the art Transformer Plant at Moraiya near Ahmedabad, Gujarat

TRIL has commissioned new state-of-the-art Transformer plant in Gujarat.

This is a full scale manufacturing unit, which will have an annual production capacity of over 16000 MVA, when fully operational. In the current fiscal, TRIL expects production of 3,000 to 4,000 MVA from this plant. Thus, this will enable TRIL to more-than-tripling capacity to 23,200 MVA in FY10 its Transformer production capabilities.

The new plant will make transformers of above 220 kV class.

Its pending order book as of 28th April stood at 4.57 billion rupees, out of which orders worth about 2 billion were received in April, 2009.

The plant is inaugurated by the Hon'ble Minister of Power & Energy - Gujarat State - Shri Saurabh Patel.

To leverage the burgeoning opportunities in the Indian and Global power industry, TRIL has been aggressively ramping up its production capacity, as well as introducing new business lines to cater to export business opportunities.

On this occasion Mr. Jitendra Mamtora, Chairman and Managing Director, of the Company said: With this new facility, TRIL has taken another step towards becoming one of the largest players in electrical equipment business in India. This new facility will improve our ability to develop and deliver world class electrical transformer products, and will also equip us to keep pace with the growing demand for transformers globally.
