Dear Sir/Madam,

Sub: Successful Completion of Dynamic Short Circuit On 105 MVA Transformer

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we would like to inform you that Transformers and Rectifiers (India) Limited has successfully completed the most stringent 'Dynamic Short Circuit Test' on 105 MVA, 400/ $\sqrt{3}$ /220/ $\sqrt{3}$ /33 kV class Single Phase Auto Transformer forming a bank of 315 MVA. The Dynamic short circuit test was conducted at National High Power Test Laboratory (NHPTL), Bina as per IEC 60076-5 standard.

With successful completion of this test, the company has crossed a commendable milestone of successful Dynamic short circuit test on a record 150 plus transformers in last 2 decades.

The successful short circuit testing on very large number of higher rating transformers demonstrates sound engineering, company's adherence to stringent quality standards and the capability to manufacture and deliver high rating reliable power transformers to various specifications.

Please take the same on your records

Thanking you,

For Transformers and Rectifiers (India) Limited

**Rakesh Kiri
Company Secretary**

T & R is one of the leading manufacturers of a wide range of transformers globally. Today T & R is second largest Transformer manufacturing company based on Capacity in India. It has capability to develop world class power, distribution, furnace and specialty transformers with world class infrastructure at three plants around the city of Ahmedabad (Gujarat, India). T & R is managed by a highly skilled and experienced team of approximately 1200 employees, who consistently ensure that each and every activity factors in an adherence to high quality benchmarks established by the organisation.
