ISO 14001:2015

OHSAS 18001:2007

VISION

To consolidate our National and International presence as a leading manufacturer of Power, Furnace and Rectifier Transformers and maintain a leading position in the T & D industry.

MISSION

To emerge as a preferred solution provider for quality Transformers with a team of dedicated professionals and business associates who are ethical, value driven and create excellent customer relationships.

An initiative which was taken well over 36 years ago, inspired by self belief, driven by knowledge and empowered by a sustained vision stands truly endorsed today. Transformers & Rectifiers (India) Ltd. has positioned itself as one of the leading players in the T&D sector and functions with a fine sense of corporate values.

An innovative environment has helped to reengineer the way T & R approaches production, design, testing, quality and research while concurrently focusing on new geographies to make a global impact in an increasingly competitive T & D sector.

In recent years, T & R has forged strong alliances to upgrade the core production values of the company. The Power Utilities sector which identifies key partners to facilitate the commissioning of Ultra Mega Power Plants, find us keeping pace with the stringent quality benchmarks demanded by them.

In an increasingly competitive economic ecosystem, T & R leverages its presence through the Power of WE - A collective vision which powers our goals.

70 MVA THE BIGGEST TRANSFORMER MADE BY AN INDIAN COMPANY WITH CAPABILITY TO MANUFACTURE UP TO 200 MVA.

IN-HOUSE CAPABILITY TO DESIGN AND
MANUFACTURE 1200 kV TRANSFORMERS; ONE
OF THE FOUR COMPANIES IN INDIA NOMINATED
BY PGCIL TO MANUFACTURE TRANSFORMERS
FOR 1200 kV TEST GRID

FURNANCE TRANSFORMERS APPROVED BY DANIELI, INTECO, PRIMETALS, SAIL - INDIA

INFRASTRUCTURE

OUR ADVANCED MANUFACTURING
FACILITIES WITH TOTAL CAPACITY
OF 36,000 MVA SHOWCASES
GLOBAL MANUFACTURING
PRACTICES IN AN AMBIENCE
WHICH ADVOCATES CONTINUOUS
IMPROVEMENT

PRODUCT RANGE

Furnace Transformer upto 120 kA

Arc Furnace Transformer
Submerged Arc Furnace Transformer
Ladle Furnace Transformer
Induction Furnace Transformer
DC Arc Furnace Transformer

Rectifier Transformer upto 160 kA DC

6 Pulse Transformer (IPT) 12/24 Pulse Transformer (IPT & Double Deck Construction) 12/24 Pulse Transformer (Bridge Connection)

Power Transformer upto 1000 MVA, 1200 kV Class

Generator Transformer Power Transformer Interconnecting Transformer Unit Auxiliary Transformer Station Auxiliary Transformer

Distribution Transformer

Ratings above 315 kVA, 11 kV/0.4 kV

Specialty Transformer

Locomotive Traction Transformer Series & Shunt Reactors upto 765 kV Mobile Sub-station Transformer Earthing Transformer & Reactor Solar Application Transformer
